DEBATE ON RECIPROCITY BILL TO BE CONTINUED IN THE COMMONS TODAY

Local Moving Picture House to Advertise Edmonton and S'cona of Branch to Pacific Pass Mines

FOREST FIRES CLAIMED ONLY SIXTY VICTIMS IN NEW ONTARIO DISASTERS

Favorable Weather Ensures Record Breaking Crop in West

Ideal Conditions Have Prevailed in All Sections of Dominion This Season

CHIEF CONSIDERATION NOW IS SECURING HARVESTERS

OVER FIFTY PER CENT. OF WHEAT IS NOW IN BLOSSOM—HEAVY RAINS AT LOW HEADS TO FILL AND PREVENT A SUPER-ABUNDANCE OF STRAW—COOL WAVE HAS PROVED VERY BENEFICIAL.

(Western Associated Press) Winnipeg, July 18.—A survey of crop conditions throughout western Canada removes all apprehension that was felt because of the heavy wave which struck the country and gives a renewed assurance of a successful harvest. Conditions could hardly be more favorable. From 25 to 100 per cent. of wheat is in blossom and indications of present crop are very bright. With the exception of two points, where frost delayed lighter crops considerably and where very slight rain has been received, the crop is well advanced. The average yield from the crop wave, 40 reports received 81 per cent. average conditions which better than the previous year, while 19 per cent. have been visited by more or less frost or other climatic conditions which were not conducive to successful ripening.

While there has generally been more rain this year than for several seasons, a few districts are complaining of lack of moisture, while others have had much rain. The vast majority of sections have, however, enjoyed ideal conditions throughout the year.

Western farmers appear to consider the cool wave as beneficial to the west. During the hot spell, which preceded the present one, it was feared that the crop would be ruined.

MOVING PICTURES OF EDMONTON AND S'CONA TO BE SHOWN IN U.S.

RESIDENTS ACROSS LINE WILL SEE REPRODUCED COMMERCIAL AND CIVIC ACTIVITY OF TWIN CITIES—BIJOU THEATRE CO. CARRYING OUT PLAN

To translate into graphic form the story of the progress and development in Edmonton and Strathcona, the Bijou Theatre company of this city is preparing to exhibit a series of films of the twin cities, showing the progress of the twin cities in the union, exhibiting films of the twin cities, showing the progress of the twin cities in the union, exhibiting films of the twin cities, showing the progress of the twin cities in the union.

Arrangements have already been perfected for the taking of views of the different public utilities, the packing plant and other large industries, views of the principal streets, and the twin cities, showing the progress of the twin cities in the union, exhibiting films of the twin cities, showing the progress of the twin cities in the union, exhibiting films of the twin cities, showing the progress of the twin cities in the union.

This will be but probably the initial step which will lead to the showing of these views in nearly every state in the union. The complete series has been brought forward this idea is not in it for profit, but purely to assist in developing this country by bringing it before the eyes and minds of the people in the south, who will probably be interested in learning what this province has to offer. All they expect to make is their expenses and the cost of producing the films.

G. T. P. Begins Laying Steel To Pacific Pass Coal Mine's

Steel laying on the Brown branch of the G. T. P. from Bickerton, to the west end of Edmonton, to the coal fields of the Pacific Pass Coal Fields, commenced on Monday morning. The steel laying outfit which has just pushed the head of steel to 200 ft. at the Alhambra river on the main line was brought out to Bickerton recently and the steel gang is rapidly pushing southward toward the Melrose river. This stream which is six miles out from Bickerton, will hold the work of steel laying temporarily while the steel of the river bridge is being erected. The concrete piers which will support the steel are completed. For a distance of 28 miles past the Melrose river the grade is ready for the rails. At this point it will be necessary to construct a short tunnel. It is scarcely probable that the head of steel on the Brown branch will get past this point before next spring.

The mines of the Pacific Pass Coal Fields, Limited, at the south-west end of the line, 3 miles from Bickerton, are now being developed rapidly and the operators will be in a position to ship coal immediately on the arrival of the steel at the mines. Forty-five men are now working at the mines and 250 tons of coal are being mined from the drifts daily.

Canadians Royally Treated During Their Stay in London

MEMBER OF ALBERTA DRAGOONS, WHO ATTENDED THE CORONATION, TELLS OF HOW THEY WERE ENTERTAINED WHILE IN OLD COUNTRY

Looking back and forth after their coronation and the royal treatment they received in the old country, Sergeant Elliott of the 1914th Edmonton Dragoons and Sergeant Major Lee of the 19th Alberta Dragoons, returned to the city by the Canadian Pacific train. They were invited to dine with the governor-general, Lord Bessborough, and the governor-general's wife, Lady Bessborough, at the governor-general's residence. They were also invited to dine with the king and queen at the palace. They were also invited to dine with the king and queen at the palace.

The Stetson had and the red coat were a sign for royal treatment everywhere. They were treated like royalty. They were treated like royalty. They were treated like royalty.

(Continued on Page Eight.)

PELAGIC SEALING TO BE DISCUSSED

WESTERN COAL STRIKE AND RECIPROCITY ALSO COME UP IN HOUSE TODAY

(Western Associated Press) Ottawa, July 19.—Parliament is again the order of business in the house this afternoon, but it will probably be late in the evening before the house gets into a committee on resolutions. When it does, J. D. Taylor, New Westminster, will continue his speech which he commenced last evening. He will be followed by Mr. Brice, one of the Toronto representatives. The opposition proposes to have a preliminary discussion on the western coal strike when A. S. Goodwin will introduce a discussion with a criticism of the action of the labor department. Then Dr. Spence, will bring up the question of pelagic sealing with Patten.

TROOPS ORDERED TO QUELL RIOTS

STRIKERS AT GARROFF, WALES, SET FIRE TO WAREHOUSE AND ASSAULT CITIES

(Western Associated Press) Cardiff, Wales, July 19.—Serious rioting occurred on the streets of Cardiff, Wales, today, when a large number of strikers gathered and set fire to a warehouse and assaulted the police. The police were ordered to quell the riots and a large number of troops were sent to the city. The strikers were ordered to disperse and the police were ordered to maintain order.

Troops have been ordered here from Newport and there is great fear of renewed rioting of an even more serious nature.

CALGARY'S PLANTS ARE MAKING MONEY

LIGHTING SYSTEM SHOWS PROFIT IN SIX MONTHS OF \$67,800—WATERWORKS \$95,610

(Western Associated Press) Calgary, July 19.—The municipal plant holding plant shows a profit of \$67,800 for the six months ending with last month. The total receipts have been \$128,257, 880,416 of which came from the sale of electricity. During the half of the present year the municipal plant has taken in \$153,446 and the net profit of this period has been \$26,171. For the first six months of the year the city water works department shows a credit balance of \$26,171 according to the statement prepared by the controller. The total revenue has been \$150,832 and the expenditure, including interest, sinking fund, depreciation and taxes, \$124,661.

SLAVE RIVER WING DAMS WASHED OUT

DAMAGE CAUSED BY HIGH WATER MAKES NAVIGATION ON LITTLE

(Western Associated Press) According to Vernon Martin, a merchant and trader from Ground on the western end of Lesser Slave Lake, 22 wing dams on the Little Slave river were washed out during the recent high waters. Mr. Martin recently came to Athabasca Landing from Ground and in his own steamer, "Slave Lake," which he uses to carry supplies to his store. He states that as a result of the destruction of the wing dams the navigation on the river is very hazardous. He is of the opinion that if the government will dredge a channel in the river, transport by this means would be fully as satisfactory as by rail.

Miss Martin, nurse, has gone to Banff for the week end and will return next week.

COMMISSIONERS OUSTED FROM OFFICE BY THE CITY COUNCIL

DEPOSED COMMISSIONERS VACATE CITY HALL OFFICES

TURNED OVER KEYS AND OFFICIAL DOCUMENTS TO CLERK AT NOON TODAY—EX-UTILITIES COMMISSIONER SILENT—NEXT MOVE NOT KNOWN

After spending the morning in the offices which they have occupied officially as commissioners of the city of Edmonton, the ex-commissioners of the city of Edmonton vacated their offices at 12:15 o'clock today, turning over their keys to Clerk English. The morning was occupied by the commissioners running through their respective desks and arranging papers in their offices. There was some speculation this morning as to whether or not the former commissioners would wait for the order of the council or would wait for a display of force. Should the latter have been taken place, the former commissioners would have been ordered to leave the city by force. The former commissioners were ordered to leave the city by force.

There was some speculation this morning as to whether or not the former commissioners would wait for the order of the council or would wait for a display of force. Should the latter have been taken place, the former commissioners would have been ordered to leave the city by force. The former commissioners were ordered to leave the city by force.

The chamber work of the Western judicial district will be taken care of by Judge H. C. Taylor of Edmonton while Judge Lewis of Wetaskiwin is away on his vacation.

CANADIAN TAKES ANOTHER TROPHY

PRIVATE CLIFFORD, TORONTO, ANNEXES PRIZE OF WALES BADGE

(Canadian Associated Press) Bixby Cann, July 19.—Pte. Clifford, 10th Royal Grenadiers, Toronto, won the Prince of Wales with an aggregate of 81 at the two races, being the highest score presented by the prince and \$500. At the second race, 600 yds. he scored 18. At the same race E. H. Morris scored 14, Roberts 30, Spill 10, McLaren 14, Melburn 14, Hiett 10, and the total score was 128. In the race prizes, for the first stage of the King's prize at 600 yards, Pte. Clifford scored 18, and won \$25; Capt. Miller was eighth, 18; 2nd and 3rd, 20th, each winning \$5. In the race prizes for the King's prize at 200 yds, Trainer, 3rd, won \$15 and Mortimer, 27th, \$5.

WISCONSIN LABOR FEDERATION

Lacrosse, Wis., July 19.—Representatives of many trades unions in Wisconsin, at least 100, were assembled in this city today, when the Wisconsin branch of the American Federation of Labor began its annual convention. The convention will probably be the end of the summer session and the business is concluded, which will probably be the end of the summer session and the business is concluded, which will probably be the end of the summer session and the business is concluded.

Very Little Disease That the contagious diseases are scarce in the city at present was demonstrated in a report from the health officer.

(Continued on Page Four.)

Evidence Taken by Investigating Committee Deemed Sufficient for Dismissal

NEITHER COMMISSIONERS NOR COUNCIL PRESENT

LONG STANDING CONTROVERSY BETWEEN CIVIL LEGISLATIVE AND EXECUTIVE BODIES BROUGHT TO A CLOSE—VOTE STOOD SIX TO ONE FOR DISMISSAL, ALD. MCKINLEY DISSENTING—ALD. HYNDMAN AND MOULD ABSENT.

Today the city of Edmonton is rid of Commissioners A. V. Boulton and A. Butchart. At the regular meeting of the city council last evening a resolution was passed dissolving what has been a source of discontent for the past five months.

The taking of the official seals of the two commissioners was done by the following resolution being offered by Alderman Grindley and a similar one by Alderman Melniks, at the regular meeting of the council last night: "Resolved, That in the opinion of the council the evidence taken and reported to the council by the committee appointed to investigate certain charges against Mr. Commissioner Boulton discloses satisfactory to the council to justify his dismissal, and that Mr. Commissioner Boulton be and he is hereby dismissed accordingly."

And a similar resolution was offered by Alderman Melniks with the name of Mr. Commissioner Butchart substituted in the place of Mr. Commissioner Boulton.

Contends That Dredge Constitutes a Menace S'cona's Water Supply

CITIZENS REGISTER A PROTEST, ALLEGING MACHINE CAUSES TURBID WATER, AND COUNCIL REFUSES TO SEWER AND WATER COMMITTEE

Strathcona, July 19.—For the second time within a year an investigation will be made into the operations of the dredge breaking 60, to ascertain if the work now being carried forward in the river near the municipal power plant, the construction of which is a menace to the city's water supply. At last night's council meeting, Mr. Carter, who had just returned from a protest to the city fathers against the dredge being allowed to operate along the waterfront above the intake pipe line. He urged that immediate action be taken to stop further dredging at this point, from the standpoint of its being a menace to public health by the increased turbidity of the water supply, and that it endangers the embankment and power house as well as proving an annoyance to the neighborhood. He argued that the Federal government would probably order the dredging to stop, and that the city would be forced to pay the cost of the dredging. He also argued to the opinion that the dredge causes turbidity in the water supply, and that it is a menace to the city's water supply.

Mr. Ald. Pollard inclined to this view from the results of the investigation last session. Mr. Carter, who had just returned from a protest to the city fathers against the dredge being allowed to operate along the waterfront above the intake pipe line. He urged that immediate action be taken to stop further dredging at this point, from the standpoint of its being a menace to public health by the increased turbidity of the water supply, and that it endangers the embankment and power house as well as proving an annoyance to the neighborhood.

Mr. Ald. Richards was of the opinion that the city could stop the work if it wanted a more and he moved that the city and sewer committee investigate and report. This committee thought it a matter which should be

RICHARD STRAUSS IS PREPARING PLAY

WILL BE KNOWN AS "AN ALPINE SYMPHONY" AND TAKE ONE HOUR TO PRODUCE

(Globe Press Service)
Munich, July 19.—Richard Strauss is engaged on an important work which will be called "An Alpine Symphony," and will take about one hour to play. It will have two main divisions. The first part represents the feelings of a lonely traveller ascending a high mountain, withdrawing himself gradually from the world. A lyrical motif is threaded through this which will represent the littleness of terrestrial affairs.

There will be musical descriptions of the difficulties encountered by the climber on his way; a waterfall, a deep gorge, a mountain thunderstorm. Arrived at the summit, the climber breathes into a song of praise of the glories of Alpine scenery.

The second division of the work describes the descent. The climber, inspired with the beauties of nature as seen in mountains, is filled with religious unbelief and worships nature instead of God. The descent is occupied with the struggle in the wander-

er's soul between this feeling for nature and the higher feeling for the divine, both of these feelings being represented by their particular motifs.

Finally the motif of religious faith dominates the work, and the symphony concludes with a lofty hymn of praise to God.

THEATRE'S RICHEST MAN

(Globe Press Service)
New York, July 19.—After two weeks spent in New York renewing acquaintances among the old-time players and theatrical managers of the metropolis, James G. Williamson, known as the richest man connected with the theatrical profession in any part of the world, sailed for Europe today to complete his fifteenth tour of the world. Some of the old-time players remember when Mr. Williamson was a "utility man" in Wallace's company in this city. Now he is known as the Napoleon of Australian managers, and his fortune is estimated in eight figures. He is in virtual control of the leading playhouses in nearly all of the large Australian cities and is also a member of a syndicate that manages several of the London theatres.

Twenty-seven street cars are now in operation in the street railway department. Two new cars arrived on Saturday from the Preston company, Ontario.

MANY POLES ARE USED IN CANADA

NINETY-FIVE PER CENT. USED BY RAILWAYS ACCORDING TO FORESTRY REPORT

"That there was an increase between the years 1908 and 1910 of 118 per cent. in the number of poles purchased in Canada is disclosed by statistics compiled by the forestry branch of the department of the interior. During the latter year the total was 792,841 poles, of an aggregate value at the point of purchase of \$1,043,874, while the average price of poles was \$1.32, or less by a per cent. than the price per pole in 1909.

Ninety-five per cent. of these poles were used by steam railroads, telephone and telegraph companies, while the remaining 5 per cent. were used by electric roads, power and light companies. Cedar poles made up 97 per cent. of the consumption. For its cost, cedar is a more satisfactory type of pole than any other.

Canada is behind the United States in that the dominion does not treat or preserve these poles in any way. Although it cost 50 cents more per pole to apply this preserving process in the States, or \$1.89 per pole for \$1,738,740 poles, it was found that the difference in cost was more than compensated for by the increased life of the woods which have been treated. The last three years have seen a very large increase in the proportion of woods so preserved. At the present time the United States uses 87 per cent. treated poles, while Canada has none.

POOR GIRL FALLS HEIR TO FORTUNE

ECCENTRIC BACHELOR, SUPPOSEDLY POOR, LEAVES \$130,000—MADE WILL ON CUFF

(Globe Press Service)
Vienna, July 19.—Friedrich Warden, a poor girl employed as a saleswoman in a most snug shop in the small town of Kienjers, in Hungary, has just inherited a fortune of \$130,000 in extraordinary circumstances.

Herr Warden, an elderly bachelor, was among the customers at the shop, and expressed indignation at the small wages paid to her. Recently he entered the shop to make some small purchases and said that he intended to make Friedrich Warden's heiress to all his property. She laughed, as she believed him to be badly off, his clothes being shabby. Saying, "I really am it," he unbuttoned his cuff, and laying it flat on the counter, drew out a fountain pen and wrote a will. He called two apprentices to sign it, and having placed it in his pocket left the shop.

A few minutes later Herr Warden, in making a violent effort to avoid a motor car in the roadway, overslid his heart and fell dead. Next day Friedrich Warden was informed that his estate of \$130,000 was at his disposal.

Miss Queen, of Toronto is visiting Mr. and Mrs. Gillespie, 626 Seventh Street.

SEMI-ANNUAL SALE

NEW YORK WASH GOODS

This week's sale is being devoted to our Mr. Ludwig's importations of Wash Goods for our Ready-to-wear Department Coats, Suits, Separate Skirts and Dresses—

LABOR LEADER IS

CHARGED WITH FRAUD

(Union Press Service.)
Boston, Mass., July 19.—Robert P. Noll, president of the International Brotherhood of Railway Employees and well known in labor circles throughout this country and Canada, was given a preliminary hearing before United States Commissioner Hayes today on a charge of using the mails in a scheme to defraud. It is alleged that some

months ago Noll issued circulars, advertising for a magazine, the proceeds of which were to be used for death and sick benefits for railroad men, and that the funds received were diverted to Noll's own use.

Residents of Lamta Deserved Punishment

SAYS SULTAN MULAI HAFID IN ATTEMPT TO EXPLAIN RECENT OUTRAGES IN TOWN WHERE HUNDREDS WERE KILLED

(Globe Press Service.)
Fez, July 19.—The Sultan, Muli Hafid, summoned to his presence the correspondent of the London Daily Express for the purpose of explaining the Lamta outrages. The correspondent, in describing the interview, says: "Muli Hafid's appearance has considerably altered since I first interviewed him shortly after his accession to the throne three years ago. He is more corpulent, his face is bloated, and the features characteristic of his Filalian dynasty, from far south, are noticeably accentuated by three years' vicious living. For three days he had shut himself up in the palace, refusing to do business or see anyone. His fit of passion on hearing of the Spanish landing at Larache and Alcazar brought on an indisposition which lasted a whole week."

The Sultan plunged at once into the matter of the Lamta outrage, when the village was wiped out and the women and children were sold into slavery. Greeting his knees nervously, Muli Hafid began as follows:

"The story of Lamta has reached Europe and America is an infamous lie. What is done in Spain, and in the case of this village of Lamta, what was done was well done. Instead of an undesired outrage, Lamta and the people of Lamta met with a well-earned punishment, accounts of which have been greatly exaggerated."

People Robbed Couriers
"Now, listen. The people of Lamta robbed my couriers and killed two of them. The soldiers found them hanging by the heels, head downwards. Lamta was the last stronghold of the rebels near Fez, and was a well-known meeting place for the hostile tribesmen of Beni M'fer. When other villages had surrendered, Lamta still held out as a centre of disaffection."

The villagers resented on the punitive force under French and English officers which I sent against them. Therefore they were punished neither less nor more than other rebel strongholds have been punished, no one objecting. As for the sales of innocent people, which so much has been made, why, if any innocent people have suffered, they may come for redress to me."

Muli Hafid paused and sat back to watch the effect of his declaration. I stated that I should send abroad what

he had said without delay.

"Alas!" (Globe Press Service.)
England, London, July 19.—"England was the friend of my father," he said, "and has been the friend of Morocco for countless years past. Why is he so cold to me now?"

On this subject, naturally enough, I did not venture comment. "If England and France do not turn Spain out of my country," he burst out angrily, "I shall try to drive them out myself. My people wish not to do it. What kind of European justice is this, that permits an armed invasion of a peaceful country? Yes, peaceful!"

"When the Spaniards came, my armies were victorious, the rebels in this country of mine were quelled, and all was quiet. Now, behold! they have stirred it up once more, and all may begin again. And Spain has no shadow of excuse for this invasion. She acts as no nation has a right to set to another. She has broken up the act of Alcazar. England and France ought to punish her for that alone."

I told him that armed intervention was, so far as England was concerned, improbable to the last degree, but that undoubtedly remonstrances would be made to Madrid. He was dissatisfied. "France and England should so to war with Spain," he said violently. "Their armies ought to turn hers out of my country and crush them. What is the value of the act of Alcazar if Spain is allowed to disregard its requirements like that?"

Indignant at Spain
Indication at the conduct of Spain seemed to occupy the mind of Muli Hafid to the exclusion of all other topics. He is obviously still meditating a declaration of war, and as I left the palace I saw the horses and mules of a large number of the chief men of Fez, who have sent deputations every day to urge him to adopt some such course.

There cannot be the slightest doubt that Spain has stirred up a perfect hornet's nest by her action in occupying Larache and Alcazar. If Muli Hafid does make war, the Moors will forget and forgive all his cruelties and will fight for him to the death. Whether they will discriminate between Spaniards and other Europeans is a doubtful question. Most probably all Europeans in the interior of Morocco will pay the penalty of Spain's rashness."

BRIGANDS DEMAND HEAVY RANSOM

GREEK BANDITS ASK \$250,000, AS WELL AS JEWELRY, FOR RELEASE OF DR. RICHTER

(Globe Press Service.)
Sofia, July 19.—The Greek brigands who carried off Dr. Richter, the German archaeologist, into the recesses of Mount Olympus, on the borders of Thessaly, have sent a letter by a shepherd demanding \$250,000 ransom, made up in stated proportions in different coins, together with a souvenir of gold chains and rings for the members of the band. In the event of non-compliance the brigands state that they will send back Dr. Richter's head.

It is asserted that the capture of Dr. Richter is to revenge Germany's support of Turkey against Greece.

HAY FEVER DUE TO PLANE TREES

NOTED ENGLISH PHYSICIAN FINDS REAL CAUSE OF TROUBLE—SOME DISEASE

(Globe Press Service.)
London, July 19.—Hay-fever so rife in London, seems to be caused by the plane-trees, with which most man thoroughfares and open spaces are now planted. Lord Walsingham recently attributed a serious attack of bronchitis and pneumonia in a member of his family to the minute spores of the fruit of the plane-tree found in the air of an avenue near Cannes. His further observations tend to confirm his view that coughs, colds, inflamed eyes, and throat troubles are most prevalent where these trees abound. Lord Walsingham is supported by Dr. Henry, of Cambridge, who has found these irritant spores swarming in the air about plane-trees at Kew and in Berkeley square. So far back as 1873 Dr. Durwell drew the attention of the authorities in Alsace to the pernicious character of the plane; and nurserymen have frequently complained of the illness caused by this tree among their employees.

John A. McPherson, M.P.P. for Stoney Plain, was in the city for a few hours Monday.

TOOK ELEVEN YEARS TO PASS ONE BILL

ACT BROUGHT BEFORE SWISS PARLIAMENT IN 1900 HAS JUST BECOME LAW

(International News Service.)
Paris, July 19.—After having been eleven years before the Swiss parliament, the bill for compulsory insurance against sickness and accident has just been passed by the upper house unanimously, and by 136 votes to 12 by the lower house.

A bill for the same objects was submitted to a referendum in May, 1900, and rejected by a large majority. Since then the original bill has been entirely recast.

It is possible that the people may demand another referendum on this bill before it becomes law. Should a referendum be taken, the "Hunt" thinks the bill will probably pass.

TAWNEY-DAY WEDDING
Missouri, Mo., July 19.—A wedding of note today was that of Miss Constance Marie Day, daughter of Frank A. Day, and Everett F. Tawney, son of ex-Congressman James A. Tawney of Minnesota. Mr. Day, the father of the bride, was formerly prominent in public life in Minnesota, and it is an interesting fact that he and Congressman Tawney, father of the bridegroom, were for many years bitterly opposed to one another in politics.

TIGERS MENACE KOREAN FAMILIES

MAN EATERS INVADE VILLAGES AND GARRY OFF SEVERAL PERSONS DAILY

(Globe Press Service.)
Dahly, Southern Manchuria, July 19.—Tigers have become a serious annoyance to the Korean farmers. Seven persons have recently been killed or seriously maimed in the Machine district of the province of North China alone.

A few days ago a great man-eater broke into the house of an old man in the village of Parauzi, and in spite of the presence of a crowd of armed men in the street outside, attacked and badly wounded the man and his son. Quickly discovering have been made in the graveyard at Chinsuwan, where tigers came down from the mountains and dug up and devoured the remains of a girl and two women.

A big battle is being planned in Seoul.

CONGRATULATIONS FOR JUDY PRYOR

(Union Press Service.)
New York, July 19.—Judy Pryor, a New York, July 19.—Judy Pryor, one of the best known figures in the public life of New York and one of the best known figures in the public life of New York, received congratulations of a host of friends today on his eighty-third birthday anniversary.

Judy Pryor is one of the few surviving generals of the Confederate States army. After serving one term as a member of the Confederate congress he entered the southern army and continued in active service until taken prisoner of war in the final year of the conflict. After the war he settled in New York and engaged in the practice of law.

Miss Chapman and Miss Muriel Fuldner, of Toronto, are the guests of Miss Fuldner's brother, Dr. F. J. Fuldner.

SHOW DEFENSE OF FORT SEBASTOPOL

(International News Service.)
St. Petersburg, July 19.—Episodes of the defense of Sebastopol will shortly be shown on the cinematograph.

With the consent of the local military authorities, soldiers will engage in the fighting to be represented, a whole infantry division with fortresses and field artillery being employed.

Several thousand shells and other explosives have been ordered, and a company of sappers will shortly begin laying the necessary mines. The mock combatants will wear uniforms of the day—Russian, British, French and Turkish.

BREAKING GROUND FOR EXPOSITION

(Union Press Service.)
San Diego, Cal., July 19.—Ground was broken for the Panama-California exposition early this afternoon, and that important event in San Diego's history was celebrated with unusually elaborate ceremonies in Balboa park.

The ceremonies began when a telegraphic signal was flashed across the continent by President Taft. Earlier in the day there were religious services in the park, with the celebration of pontifical high mass by Bishop Gorman. The celebration is planned to continue through the remainder of the week and will include floral pageants, water sports and an industrial and civic parade.

INTER-PROVINCIAL

Stock Show & Race Meet

At Edmonton August 15, 16, 17, 18, 19

WRITE FOR PRIZE LIST TODAY.

A. G. Harrison, Mgr. P. O. Box 216

The New FACTORY TOWNSITE

Where FORTUNE AWAITS YOU

ON SALE TODAY a Beautiful Residential and Business Townsite, situated where nature ordained a town would be located--In the heart of the greatest Empire in the World, the Province of Alberta. In a few days the conductor will shout "All Aboard" for Clyde. Cheap lots will be hard to find then. GET A FEW LOTS NOW WHILE YOU STILL HAVE AN OPPORTUNITY.

TWENTY YEARS AGO

The explorer predicted a great future for this spot. Removable vegetation, excellent water, abundance of timber, plenty of game--the biggest kind of inducements to thrifty settlers. Today we find the scene changed. All is expectation and unrest. The C. N. R. has reached Clyde and the populace are preparing to build a town. Lots are selling fast, because the price is easy--too easy to last long. The ground floor will soon be taken.

The Future of Clyde

Today it does not require a Prophet to foretell the future of Clyde. The time is almost here when the stranger will be in the streets and capital will pour in. Workmen will be here to man the industries; steam and electricity are natural resources, cheaper than neighboring towns can ever hope for. The right class of settlers have located here--the progressive class. The C. N. R. and the owners of Clyde considered well the ground, and big railroads make few mistakes. A townsite so established is absolutely guaranteed and as a junction will be the distributing centre for the North Country and a Divisional Point for Branch Lines.

THE RESOURCES OF CLYDE

Are assured; all indications favor oil and natural gas. In fact, oil has been found floating on the water in the immediate vicinity; and close by are asphalt and cement. No other town has near the inducements to offer industries--a community so large demands a hundred different lines of business, besides creameries, cheese factories, canning factories, etc. Don't delay; buy now.

Prices \$45.00 up

Terms: \$25 cash, Bal. 6 and 12 months

SEES NO REASON FOR DISQUALIFYING FOUR ALDERMEN

INJUNCTION TAKEN OUT WEEK AGO BY F. FRASER SIMMONS DISSOLVED BY MR. JUSTICE SIMMONS--INTEREST AND BIAS CHARGES NOT PROVEN

After a hearing which occupied an entire half-day, Mr. Justice Simmons of the supreme court of Alberta, entered a judgment dissolving the injunction issued last week, restraining the city council of Edmonton from taking any action in regard to the report of the committee, which investigated the charges preferred against Commissioners Bourdon and (Butek) M. Biegar, solicitor for plaintiff, and Frank P. K.C. and E. B. Williams, solicitors for the defendant aldermen, steadily contending every inch of ground. The ladies and gentlemen of the baristas were to small feature of the hearing.

In rendering judgment dissolving the injunction Mr. Justice Simmons said that "This action was begun, and special leave to issue a writ and an injunction under somewhat peculiar circumstances were raised as issue had already been adjudicated upon, and now by motion of appeal before the court, en banc, but that it was pointed out to applicant's solicitor, and the whole issue were being raised as new matter, and the statement of the court, in the event of successful raising of this brief, any other cases would be abandoned, and the whole issue raised by either party under appeal, in these circumstances, he thought the application was reasonable, and if successful would rather shorten than lengthen the process of adjudicating finally of this cumbersome matter. In the interest of the community, it should be dealt with as soon as possible.

The court continued: "As to claim, paragraph 2, namely 'A declaration that all the defendants are disqualified from voting by reason of their having themselves given evidence in respect of the matters of the complaints and for the purpose of establishing the same.'"

Aldermen are Qualified
That was raised at all before, and before me will have to be disposed of here, and I am bound to say it affords me some difficulty in disposing of it, but reading the whole of the judgment before me, which I am bound to say I largely concur in, I think it would be quite consistent with that judgment to hold that the aldermen are qualified to lay charges and prosecute and then to

adjudicate, but to introduce an intermediate step, it would be difficult to say they had all three powers but had no right to give evidence.

"The council themselves are the body which shall determine upon the reasonableness of the cause, practically the power of a jury in drawing inferences, I take it. I think it would be going very far then to say they were incompetent themselves to give evidence regarding any acts of the council."

"The council themselves are the body which shall determine upon the reasonableness of the cause, practically the power of a jury in drawing inferences, I take it. I think it would be going very far then to say they were incompetent themselves to give evidence regarding any acts of the council."

Securitary Interest
"It seems to me, a man has a very direct pecuniary interest when he is a shareholder in a company contracting with the city, but the Justice Stewart held, I think rightly, that section is wide enough to give the commissioners the right to, I should say the aldermen have the right to sit in judgment upon the commissioners. He has not gone as far as to say he would do so if it were brought home to the alderman a direct interest in the matter at issue."

Now as to the fourth paragraph of the claim, the declaration disqualifying Mr. McInnis and Mr. Landy in respect of these being complainants against the commissioners. That I am bound to hold as Mr. Justice Stewart's judgment, in which he specifically says they are entitled to lay the complaints and virtually to act as prosecutors.

Injury to Commissioner

The argument raised by the defendant counsel that any injury that the commissioners might possibly suffer under any action which might be

taken by the council can be remedied by having a remedy within the jurisdiction of the courts after the adjudication, is a very forcible one and very strongly appeals to me, and still I cannot go so far as to say not entitled to raise issue now, I am bound to say, having heard counsel for both sides, arguments, that I do not see any reason for continuing the injunction, or any valid reason at this stage of the proceedings for attempting to disqualify or disqualify the aldermen from acting as members of the council either in the whole council or as a committee of the whole council in adjudicating upon the question. In view of the fact that the application of the plaintiff will be dismissed, and the injunction itself dismissed with costs."

MOVING PICTURES OF EDMONTON AND SCOTLAND TO BE SHOWN U.S.

(Continued from Page One.)

educational institutions in the twin cities, residential and business streets, the city power plant, street railway, telephone, and other utilities. The packing plant and other industries, will form the films which are to be exhibited in the south, and which will do more towards inducing immigrants to this country than tons of literature sent out by various bodies. The people in these states will see affairs in action and by that can more adequately judge the true conditions in this section of the province.

COUNCIL WILL DEAL WITH GAS PROBLEM

ADJOURNED MEETING FOR THAT PURPOSE TONIGHT -- TO RAISE LICENSE FEE FOR TRAVELLERS

There will be an adjourned meeting of the city council this evening for the purpose of considering the gas agreement as revised according to suggestions made by the council, and for the purpose of considering the proposed revision of the license by-law governing travelling salesmen. It is proposed to raise the license demanded of travelling salesmen in order to protect the merchants of this city from the agents of outside houses coming to Edmonton twice a year, soliciting orders for goods and departing. It is declared to work an injustice upon the merchants of this city, who pay rent twelve months in the year, if these being complainants against the commissioners. That I am bound to hold as Mr. Justice Stewart's judgment, in which he specifically says they are entitled to lay the complaints and virtually to act as prosecutors.

The town social which was to have been held by the ladies of the Church of Immaculate Conception this week has been postponed until next Wednesday, July 19th.

FAIR GROUNDS IN FIRST-CLASS SHAPE

OVER MILE OF SIDEWALKS LAID DOWN--THE YEAR--DRIVEWAYS AND STREETS GRAVELLED

People who visit the Edmonton exhibition this summer after seeing it on the new grounds for the first time last year will find a remarkable improvement in the exhibition park. The change will be almost as great as that from the old grounds of the year before to the partially completed lay out which accumulated the exhibition last season.

The weather wet or dry when the great exhibition opens on the fifteenth of next month it will not be necessary for any of the visitors to get their feet muddy. This in itself will be a remarkable change for last year there was a sea of mud to be crossed between practically every building on the grounds. Already more than 6,000 feet of sidewalk have been constructed and all the buildings can be reached without once stepping off the plank. Wide walks have been constructed from the main entrance on both sides of the boulevard to the rear of the grand stand. An eight foot walk has been laid in front of the privilege space, south of the grand stand, this walk extends up to the dining hall, which is on the opposite side of the grounds and to the manufacturer's buildings which also are being erected in that quarter. From this point a narrower walk ex-

tends completely around the grounds past the horticultural building, the dog building, the fire hall and every one of the stock buildings. In front of the grand stand the ground has been covered with a liberal coating of saw dust which will make mudiness here impossible, with the most inclement weather. Driveways leading into the grounds have been gravelled and graded carefully. Their appearance has been added to greatly by boulevarding and the planting of trees in the grassy stretches along their edges.

Nature Has Assisted.
Nature also has been doing her share toward making the exhibition grounds clean and pleasant. Where at exhibition time last year there was nothing but the bare earth which earlier in the season had been stripped of trees and cleared of roots there are now wide expanses of heavy sod. A good hay crop has been cut on the exhibition grounds this year, and all the grounds are looking green and fresh. Around the offices of the secretary and directors, opposite the main entrances, extensive flower beds have been laid. They add greatly to the attractiveness of the place.

Just at present, the sound of the hammer can be heard from different sections of the grounds where building is being carried on. The two wings of the manufacturer's building are being erected rapidly. The additions to the stock buildings are being completed and little alterations are being made in the grand stand. Ninety men are employed on the grounds, and work is being pushed with a view of having everything in readiness for the opening of the exhibition.

Tenders are being called for the purchase of the new court house on McDougall avenue.

ANTI-HORSE THIEF ASSOCIATION
(Union Press Service)
Arkansas City, Kan., July 19.—Arkansas City today began the entertainment of the annual convention of the Anti-Horse Thief Association of Kansas and Oklahoma, which is one of the most unique and influential organizations in this section of the country. Though horse thieves are not so plentiful in the two states as they were once upon a time, the association has continued to maintain its organization largely for social purposes and now has a membership estimated at 50,000.

NEW BRICK BLOCK IS ONLY TEMPORARY

FIRST STREET STRUCTURE WILL BE REPLACED BY LARGER BUILDING IN FEW YEARS

Excavation for the basement of the three-store structure to be erected on First street, just west of the King Edward hotel by the Alberta Loan and Investment company, has been commenced and the work, consisting of the building will be proceeded with as rapidly as possible in order that it may be completed this year. The cost in the neighbourhood of \$35,000, but realizing the importance of large increased values, the company which is having the building erected has decided that this will only be a temporary structure.

It is believed by the company owning the property that it will only be a few years until a building of this size will be inadequate for the business which will be transacted on this thoroughfare, as well as incommensurate with the value of the property. Consequently, within the next five or six years the company proposes to tear down this structure and replace it with a six or eight-story building with a foundation capable of carrying even more stores if necessary.

RUSSIAN LABORER COMMITTS SUICIDE

BECOMES DEPENDENT AND HANGS HIMSELF IN SHACK ON Q.T.P.—INQUEST HELD.

Andrew Onysky, a Russian, committing suicide by hanging himself from a Trunk Pacific railway, a few miles south of Thornton on Sunday. He had been in the city for several days and on the afternoon of July 16, when his three companions returned home from a walk along the tracks, they found him hanging to a rafter of the shack, where the four of them lived. The companions were Joe Bisset, Mike Barry and John Milton.

They immediately reported the matter to the police and a thorough investigation was made. An inquest was held and the verdict of the jury was that he had committed suicide.

Onysky's parents live in Russia and one of his companions, a laborer on the grade, has written to them, informing them of his death. An uncle of the suicide lives in Manitoba. His name is P. Bany.

The body was interred a hundred yards from the shack, where he was found hanging.

VICTIMS OF FIRE NOW NUMBER SIXTY

ORIGINAL LIST INCLUDED MAN WHO NEVER EXISTED—ONE NAME DUPLICATED.

(Western Associated Press) "Ottawa, July 18.—The death list has been reduced to 60 owing to a clerical error at the West house where a man reported missing having never existed. Another name has been discovered duplicated, and an unidentified body was reported in the list by accident after identification. This reduces the list from 62, as it stood this morning, to 60, as it stands now. The two bodies reported at the Frederick house yesterday had been confused with two being men, who returned to that section from Porcupine. It may be now that the maximum death list has been reached, although three men in the Powell have not been found. Search parties in Detroit have found no bodies. No new deaths were reported today.
